

# Lift Pit Liners

by Ideal Lifts

## Advantages of Lift-Pit Liners

- Speed of installation. Half hour preparation (no more shuttering bonded membranes, rendering or tanking).
- Cost effective. Reduces labour.
- Building guide for block work and concrete fill line.
- Does not degrade. Not affected by extreme temperatures or chemicals.
- In the unlikely event that the product fails, the structure would be made watertight by a traditional tanking method, free of charge.
- Specialist sizes to order.
- Guaranteed waterproof for a period of 30 years.

## Below is an extract of a typical Lift-Pit Liner Application
