

Ideal Lifts Frame System for OFFSITE Construction

Frame mounted (OFFSITE) lift benefits:

- Speeds up construction to deliver the project earlier to the market
- Removes reliance on expensive skilled labour on site
- Cost certainty with no waste
- Very light weight compared to heavy concrete shafts vastly reducing foundation costs
- Ideal lift frame includes for everything required for lift installation, all lifting beams, pit ladder and does not require scaffolding, building in of specialist inserts along with many other benefits
- Enables our clients to provide a much-simplified lift shaft which is designed for OFFSITE manufacture, with fire lining that can be completed prior to site assembly, no on site cutting and patching required
- Requiring no landing rebates, simplifying construction on and OFFSITE maintaining full fire integrity

The *Ideal Lifts Frame System* is an innovative stand-alone structure that negates the need for traditional concrete lift shaft construction. Smarter than traditional construction, its unique design ensures that only a standard lift shaft is required. We understand about build time and budget, which is why our aim is to offer cost effective and time reducing solutions.
